LANGUAGES

- French

DEL F B2
- English

Intermediate (B2)
- Arabic

CERTIFICATIONS

- Claude Certified Associate 2026 —
Certified Foundations Associate
- Oracle Cloud Infrastructure 2025 —
Certified Foundations Associate
- Apache Kafka Foundations
(Confluent)
- Injaz AI-Maghrib —
Entrepreneurship, 2025
- Internet Society — Network
Operations
- Organizing Committee Member, 2nd
UMIESP International Conference

SOFT SKILLS

- Communication
- Teamwork
- Adaptability
- Problem Solving
- Emotional Intelligence
- Time & Stress Management

PROFILE

Graduate Software Engineer with strong expertise in application development, software quality, and generative AI. Passionate about designing robust, scalable, and high-quality solutions.

EDUCATION

- Specialized Master's in Software Quality**

2024 – 2026

Faculty of Sciences Dhar El Mehraz — Sidi Mohamed Ben Abdellah University, Fez
- Professional Bachelor's — Information & Communication Systems Development (DSIC)**

2023 – 2024

Higher School of Technology — Moulay Ismaïl University, Meknes
- Computer Engineering — Software Engineering Track**

2021 – 2023

Higher School of Technology — Moulay Ismaïl University, Meknes

TECHNICAL SKILLS

Generative AI & LLMs	Prompt Engineering, LangChain4j, RAG, Advanced RAG, Fine-tuning, Embeddings, Vector Databases, Qdrant, ChromaDB, FAISS, Pinecone, Claude, GPT, Amazon Titan, AI Agents, Memory Management
Java & Spring	Java 17/21, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST API, Maven, Servlets & JSP, Tomcat
Architecture & Design Patterns	MVC, DAO, Repository, Factory, Singleton, Builder, Strategy, Observer, SOLID, Clean Code
Web Development	HTML5, CSS3, JavaScript ES6+, TypeScript, React, Angular, Node.js, Bootstrap
DevOps & Cloud	Git, Jenkins, GitLab CI/CD, Docker, AWS Bedrock, Amazon S3
Methods & Project Management	Scrum, Agile, SAFe, Jira, Confluence
Messaging & Streaming	Apache Kafka, Kafka Connect, Confluent Platform, Event-Driven Architecture
Testing & Quality	JUnit 5, Mockito, Selenium, Cucumber, JMeter, JaCoCo, SonarQube, Jest
Databases	Oracle, MySQL, SQL Server, MongoDB, PL/SQL, SQL

PROFESSIONAL EXPERIENCE

- Graduation Internship — Capgemini**

March 3, 2026 – August 31, 2026

Design and development of an intelligent assistant for exploring internal technical documentation, based on an Advanced RAG architecture.

Requirements analysis and design of the Advanced RAG architecture (ingestion, chunking, embeddings, retrieval, reranking)

Backend development with Spring Boot exposing the assistant's REST APIs

Orchestration of LLM calls (AWS Bedrock) via LangChain4j

Indexing and vector search of technical documents with Qdrant, caching with Redis

Full frontend development of the application with Angular: module architecture, routing, and component tree

Design and development of the conversational (chat) interface to interact with the intelligent assistant

Creation of reusable components (forms, tables, modals, notifications) for the entire application

Consumption of backend REST APIs and centralized application state management on the Angular side

Dynamic display of generated responses highlighting associated source documents

Implementation of a responsive, user-friendly interface suited to different use cases

Integration with the GitLab API to retrieve and synchronize internal technical documentation

LangChain4j

Spring Boot

AWS Bedrock

Angular

Qdrant

Redis

GitLab API

REST API
- Graduation Internship — MedYouln**

April – May 2024 · 2 months

Development of a REST API for inventory management at MedYouln.

Laravel

REST API

MySQL

Git

Postman

Swagger
- Internship — RADEM**

April – May 2023 · 2 months

Development of a web application to automate the management and assignment of meter readers.

Laravel

React

Node.js

AJAX

Axios

MySQL
