LANGUAGES

French — DELF

English — Intermediate (B2)

Arabic

CERTIFICATIONS

- Claude Certified Associate 2026 — Certified Foundations Associate
- Oracle Cloud Infrastructure 2025 — Certified Foundations Associate
- Apache Kafka Foundations (Confluent)
- Injaz Al-Maghrib — Entrepreneurship, 2025
- Internet Society — Network Operations
- Organizing committee member, 2nd International Conference UMIESP

SOFT SKILLS

Communication · Teamwork · Adaptability · Problem solving · Emotional intelligence · Time & stress management

PROFILE

Graduate Software Engineer with strong expertise in application development, software quality and generative AI. Passionate about designing robust, scalable and high-quality solutions.

EDUCATION

Specialized Master's in Software Quality — 2024 – 2026
Faculty of Sciences Dhar El Mehraz — Sidi Mohamed Ben Abdellah University, Fez

Professional Bachelor's — Information and Communication Systems Development (DSIC)
2023 – 2024
Higher School of Technology — Moulay Ismail University, Meknes

DUT in Computer Engineering — Software Engineering option — 2021 – 2023
Higher School of Technology — Moulay Ismail University, Meknes

TECHNICAL SKILLS

Generative AI & LLMs	Prompt Engineering, LangChain4j, RAG, Advanced RAG, Fine-tuning, Embeddings, Vector Databases, Qdrant, ChromaDB, FAISS, Pinecone, Claude, GPT, Amazon Titan, AI Agents, Memory Management
Java & Spring	Java 17/21, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST API, Maven, Servlets & JSP, Tomcat
Architecture & Design Patterns	MVC, DAO, Repository, Factory, Singleton, Builder, Strategy, Observer, SOLID, Clean Code
Web Development	HTML5, CSS3, JavaScript ES6+, TypeScript, React, Angular, Node.js, Bootstrap
DevOps & Cloud	Git, Jenkins, GitLab CI/CD, Docker, AWS Bedrock, Amazon S3
Methods & Project Management	Scrum, Agile, SAFe, Jira, Confluence
Messaging & Streaming	Apache Kafka, Kafka Connect, Confluent Platform, Event-Driven Architecture
Testing & Quality	JUnit 5, Mockito, Selenium, Cucumber, JMeter, JaCoCo, SonarQube, Jest
Databases	Oracle, MySQL, SQL Server, MongoDB, PL/SQL, SQL

PROFESSIONAL EXPERIENCE

End-of-studies internship — Capgemini — March 3, 2026 – August 31, 2026

Design and development of an intelligent assistant for exploring internal technical documentation, based on an Advanced RAG architecture.

- Requirements analysis and design of the Advanced RAG architecture (ingestion, chunking, embeddings, retrieval, reranking)
- Development of the Spring Boot backend exposing the assistant's REST APIs
- Orchestration of calls to LLMs (AWS Bedrock) using LangChain4j
- Vector indexing and search of technical documents with Qdrant, caching with Redis
- Full development of the application frontend with Angular: module architecture, routing and component tree
- Design and development of the conversational (chat) interface to interact with the intelligent assistant
- Creation of reusable components (forms, tables, modals, notifications) used across the whole application
- Consumption of the backend REST APIs and centralized state management on the Angular side
- Dynamic display of generated answers, highlighting the associated documentation sources
- Implementation of a responsive, user-friendly interface adapted to different uses
- Integration with the GitLab API to retrieve and synchronize internal technical documentation

LangChain4j · Spring Boot · AWS Bedrock · Angular · Qdrant · Redis · GitLab API · REST API

End-of-studies internship — MedYouln — April – May 2024 · 2 months

Development of a REST API for stock management at MedYouln.

Laravel · REST API · MySQL · Git · Postman · Swagger

Internship — RADEM — April – May 2023 · 2 months

Development of a web application to automate the management and assignment of meter readers.

Laravel · React · Node.js · AJAX · Axios · MySQL
